Summary

Senior Software Engineer with over 5+ years of experience in developing responsive single-page applications using Angular. Proven track record in monitoring performance, rectifying front-end issues, and enhancing user interfaces through cutting-edge technologies. Strong collaboration skills demonstrated while working with Agile remote teams using tools like Azure DevOps, Jira, Teams, and Git. Aiming to leverage expertise in product feature development to drive innovative solutions.

Experience

Senior Software Engineer(Team Lead)   07/2025 to Current
Muthoottu Mini   Kochi

- Led a team of software developers in designing, implementing, and maintaining complex software solutions, enhancing product functionality and user experience.
- Refined and upgraded existing software to continuously improve performance.
- Collaborated with cross-functional teams to gather requirements, specify system functionalities, and develop robust software architectures.
- Coordinated with product managers to define clear project scopes, ensuring alignment with business goals and objectives.

Senior Software Engineer   12/2022 to 06/2025
Thomsun Infocare   Kochi India

- Translate business requirements into technical specifications and implementations
- Debugging issues in the application code to ensure it is working correctly
- Develop, maintain and release web related user interfaces and prepare systems design documentation
- Leading angular project development
- Research, analyze, and develop product features of increasingly complex nature.
- Write clean, maintainable, and efficient code following best practices and coding standards.
- Use version control systems like Git to manage and track changes to code.
- Working on two major projects: an ERP application using Angular 15.

Software Engineer   08/2021 to 12/2022
Geojit Technologies   Kochi India

- Developed new, efficient and well-tested code for a variety of different software projects.
- Collaborated with designers and product managers to develop innovative products.
- Database handling using SQL
- Creating jasper reports
- Using Gitlab
- Worked on 4+ projects with various version of angular 7,10,13.

Angular Developer   07/2020 to 08/2021
Iroid Technologies   Kochi

- Develop user interfaces with the latest front-end technologies
- Improved web design and usability through UX testing.
- Ensuring that all code complies with best practices and standards set by the company or organization they work for.
- Designing, coding, testing, and deploying the application.
- Identify and resolve bugs and issues in the web applications
- Work with cross-functional teams, including designers and backend developers, to ensure seamless integration and functionality.

Skills

- Angular
- Bootstrap

- Performance Monitoring
- Front-end Issue Rectification
- User Interface Enhancement
- Agile
- Azure DevOps
- Jira
- Teams
- Git
- Product Feature Development
- Innovative Solutions
- Team leadership
- Version control
- API development
- Unit testing
- SQL database management
- Angular versions 10,13,15,17
- Front-End Development
- HTML5
- CSS
- CI/CD pipeline
- Dot Net
- Typescript
- Javascript
- Angular Material
- PrimeNG
- Ant Design
- Syncfusion
- SQL
- JQuery
- Project management
- Team leadership
- Testing and deployment
- Jasper Reports
- Requirements Documentation
- Solution Recommendations
- Team Collaboration
- Testing and Debugging
- Design and Development

Certifications

- Angular
- React Js
- .Net

Education

Bachelor of Computer Application(BCA): **Computer Science**
MES KVM College   Valanchery

Higher Secondary Education: **Computer Science**
GHSS   Pattambi

High School
Majilis HSS Vengad   Valanchery
